8.3 Law Enforcement Officer Training

CAPRA Review Team Comments: Provide more information regarding the officers who attended the training. IS there an attendance list of officers that have through the courses or refresher courses with matching dates? What is the plan for updates if an officer misses a training? Do they wait for the quarterly updates?

Every Garland Police Officer taught Garland City Ordinances within the Garland Police Academy. Officers are trained on where to find specific ordinances related to park hours and other codified park regulations. Garland Officers are then individually responsible for staying up to date on said ordinances. The academy keeps records of the training, but GPD has around 355 currently employed officers who have worked for the department for anywhere from two months up to thirty plus years. Major updates to ordinances and state laws, are provided during mandated training sessions. Rosters are kept for mandated trainings.
